

Alpha Battery Restart Guide

Step 1: Find the power button/s.

Option 1: Silver button on the left side of the battery

Option 2: Silver button/s on the right side of the battery

Option 3: Button on the front of the battery

Step 2: Turn off all batteries.

Press and hold the power button for each of the batteries until the LED light on the front turns off (about 5-10 seconds)

Step 3: Wait 1 minute.

Step 4: Turn on all batteries.

Firmly *press* each of the power buttons a single time to turn them on, do not hold the button down.

Step 5: Wait 10 minutes.

Step 6: Check the AlphaESS app to confirm the system is online
